We changed your account — federal tax deposit penalty

We are writing about your Form 941 for the tax period ending March 31, 2026. Our records show that one or more required federal tax deposits for this quarter were not made on time. As a result, we assessed a Failure-to-Deposit penalty and adjusted your account.

Summary of changes

Failure-to-Deposit penalty	\$3,707.87
Interest charged	\$58.40
Amount due by June 17, 2026	\$3,766.27

What you need to do

- If you agree with the changes, pay the amount due by June 17, 2026 to avoid additional interest.
- If you disagree, call us at the number below or send a written explanation with supporting deposit records within 30 days. You may request abatement if the failure was due to reasonable cause and not willful neglect.
- The penalty was computed under the tiered Failure-to-Deposit schedule based on how many days each deposit was late.
